

The Path of the Poppy

This year Lady Haig's Poppy Factory are producing the new plastic-free poppy. The change to plastic-free reinforces Poppyscotland's drive to be more sustainable and reduce its impact on the environment, while ensuring that the poppy continues to be a national symbol of Remembrance.

The history of the poppy appeal dates back to 1921 with Scotland's own poppy factory being established in 1926.

In the years that followed the Scottish poppy has evolved and changed with the times, all the while raising vital funds to support veterans.
